</tbody>
</table>
P271 Use only outdoors or in well ventilated area
P284 (In case of inadequate ventilation) wear respiratory protection
P273 Avoid release to the environment
P210 Keep away from heat, hot surfaces, sparks, open flames, and other ignition sources. No smoking.
P233 Keep container always closed
P240 Ground and bond container and receiving equipment
P242 Use non sparkling tools
P243 Take action to prevent static discharges
P280 Wear protective gloves/protective clothing/eye protection/face protection

Precautionary Statements

Respsns
P301+P310 If swallowed: immediately call a poison center/doctor
P304+P340 If inhaled: Remove person to fresh air and keep comfortable for breathing
P308+P311 IF exposed or concerned: call a poison center / doctor
P310 Immediately call a poison center/doctor
P312 Call a poison center/doctor if you fell unwell
P314 Get medical advice/attention if you fell unwell
P320 Specific treatment is urgent (see on this label)
P321 Specific treatment (see on this label)
P330 Rinse mouth
P391 Collect spillage
P303+P361 If on skin (or hair): take off immediately all contaminated clothing. Rinse skin with water (or shower)
P370+P378 In case of fire, use appropriate fire extinguisher to extinguish.
P305+P351 If in eyes, rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337+P313 If eye irritation persist, get medical advice/attention.

Precautionary Statements

Storage
P405 Store locked up
P403+P235 Store in well ventilated place. Keep cool.
P403+P233 Store in well ventilated place. Keep container tightly closed.

Disposal
P501 Dispose of contents/container in accordance with local regulations / regional / national / international

Other Hazard
SECTION 3 - COMPOSITION / INFORMATION ON INGREDIENTS

<table>
<thead>
<tr>
<th>CHEMICAL NAME</th>
<th>CAS NO</th>
<th>CONCENTRATION (% w/w)</th>
</tr>
</thead>
<tbody>
<tr>
<td>N,N-dimethyl-2-methylcarbamoyloxyimino-2-(methylthio)acetamide</td>
<td>23135-22-0</td>
<td>24 %</td>
</tr>
<tr>
<td>Other material include solvent and surfactant</td>
<td></td>
<td>76 %</td>
</tr>
</tbody>
</table>

SECTION 4 - FIRST-AID MEASURES

Eye: If concentrate is splashed in eyes, flush with running water for at least 15 minutes. Take to hospital without delay.

Skin: If spill on the skin, remove contaminated clothing and wash affected areas of skin immediately. DO NOT Scrub the skin. Remove and wash contaminated clothing before re-use.

Ingestion: If swallowed DO NOT induce vomiting. For advice, contact the National Poisons Centre or a doctor immediately.

Inhalation: If inhaled, remove from exposure and have patient lie down and keep quiet. If patient is not breathing, start artificial respiration immediately. Never give anything by mouth to an unconscious person. Call a physician if necessary.

SECTION 5 - FIRE FIGHTING MEASURES

General Information: Firefighters must consider the nature of the product and use the poison face shields, full breathing apparatus and flame resistant clothing.

Extinguishing Media: Water Spray, Foam, Dry Chemical, CO₂

Specific Hazard of Fire: Burning chemicals may produce by products more toxic than the original material.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Use personal protective equipment for handling spill. Local regulations should be complied with.

Do not allow to enter drains or water courses. When the product contaminates public waters, inform appropriate authorities immediately in accordance with local regulations.

Remove all sources of flames and sparks.

For small liquid spills, soak up with lime, damp earth or sand, or other noncombustible absorbent material and place into containers for later disposal.

For large liquid spills, contain the liquid for later disposal. In situations where product comes in contact with water, contain contaminated water for later disposal. Do not flush spilled material into drains. Keep spectators away. Local regulations should be complied with for later disposal.

SECTION 7 - HANDLING AND STORAGE

Handling: Do not breathe vapour or mist. This product causes eye irritation, do not get in eyes. Wash thoroughly after handling. Wash clothing after use. Do not store or consume food, drink or tobacco in areas where they may become contaminated with this material. This product must be under the control of an approved handler at all times. This product must be tracked.

Storage: Do not store near sources of sparks, flame or heat. Keep under lock and keep out of reach of unauthorised persons, children and animals. Store in its original labeled container in isolated, dry, cool and well-ventilated area. Not to be stored next to foodstuffs and water supplies. Local regulations should be complied with.
SECTION 8 - EXPOSURE CONTROL / PERSONAL PROTECTION

Engineering control : Use only with adequate ventilation

Personal Protective Equipment
Eye Protection : Safety googles or faceshield
Gloves : Rubber gloves with chemical resistant
Clothing Protection : Long-sleeved clothing, long pants, shoes with socks
Respiratory Protection : Mask, in case of inadequate ventilation wear respiratory protection that recommended by NIOSH

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

1. Physical Appearance : Liquid
2. Color : Dark Green Clear
3. Odor : Odorless
4. Odor Threshold : Not available
5. pH (1% ) : 3-6
6. Melting Point : Decomposes on distillation (technical)
7. Freezing Point : Not available
8. Boiling Point : Not available
9. Flash Point : 23 °C
10. The rate of Evaporation : Not available
11. Flammability : Not available
12. Upper/lower flammability : Not available
13. Vapour Pressure ( technical material) : 0,051 mPa (25 °C)
14. Molecular weight : 219.3
15. Decomposition temperature : Not available
16. Autoignition temperature : Not available
17. Viscocity : Not available
18. Bulk Density : Not available
19. Density relative : 0.95-0.98 g/L
20. Water Solubility : Soluble in water

SECTION 10 - STABILITY AND REACTIVITY

Reactivity : Not available
Stability : Stable at normal temperatures and storage conditions
Hazardous Reaction under Specific Condition : Not available
Condition to Avoid : Heat, flames, spark, fire
Incompatible material to avoid : Incompatible with strong acids or bases (slowly hydrolyzes)
Hazardous Product of Decomposition : Will not occur
Hazardous Polymerization : Will not occur

SECTION 11 - TOXICOLOGICAL INFORMATION

Acute Toxicity (oral) LD₅₀ : 9.3 mg/kg Rat
An acute oral LD50 of 2.5 mg/kg (technical) of body weight was calculated for female rats and 3.1 mg/kg for male rats gave oral doses of oxamyl (90% a.i.). Clinical signs that were observed included heavy breathing, fasciculations, salivation and lacrimation (EPA, 2004).

Acute Toxicity (dermal) LD₅₀ : >2000 mg/kg Rat

Acute Toxicity (inhalation) LC₅₀ : 0.23 mg/l (ATEmix)

Subchronic toxicity (90 days) - Technical : Repeated oral doses of 2.4 mg/kg of oxamyl given
Material

5 days/ week for 2 weeks caused the animals also had slight body weight decreases, exhibited salivation and slight pallor. The animals also exhibited typical anticholinesterase symptoms such as fasciculations and salivation soiled fur, lacrimation, salivation, slow righting reflex, abnormal gait, tremors, impaired locomotion, no response to tail pinch, increased limb splay, incoordination, labored breathing, decreased forelimb and hind limb grip strength (EPA, 2004).

Chronic Toxicity (2 years) - Technical Material: Not available
Mutagenicity in germ cells: No mutagenicity
Carcinogenicity: No carcinogenic activity
Eye Irritation: Rabbit: Slightly irritating
Skin Irritation: Rabbit: Non-irritating

SECTION 12 - ECOLOGICAL INFORMATION

Acute Toxicity

<table>
<thead>
<tr>
<th>Species</th>

</tr>
</thead>
<tbody>
<tr>
<td>Fish - Rainbow trout (LC50 96 h)</td>
<td>4,3 mg/l</td>
</tr>
<tr>
<td>Daphnia - Daphnia Magna (LC50 48 h)</td>
<td>0,41 mg/l</td>
</tr>
<tr>
<td>Algae - Senegastrum capricornutum (EC50 96 h)</td>
<td>3,2 mg/l</td>
</tr>
<tr>
<td>Bird - Mallard Duck</td>
<td>4 mg/kg</td>
</tr>
</tbody>
</table>

Bio accumulation: Not available
Persistence and degradation by environment: In the soil, oxamyl degrades rapidly with a half-life of 2 to 4 weeks under aerobic conditions and less than 1 week under anaerobic conditions. Not persistent in soil or water.

Soil Mobility: Mobility increased as the amount of organic matter decreased in the soil.

Others adverse effect: Highly toxic to bees
Acute LD50 (contact) 0,33 ug/bee, (oral) 0,05 ug/bee

SECTION 13 - DISPOSAL CONSIDERATIONS

Disposal, storage or cleaning equipment should not be used to contaminate food, animal feed or water. Read extermination instructions listed on the product label. Products are very toxic to aquatic organisms with long lasting effects. Do not contaminate domestic water or other water sources.

Disposal Containers / Packaging: Destroy empty container and dispose of / destroyed in accordance with local regulations. Never use second-hand containers for any purpose.

SECTION 14 - TRANSPORT INFORMATION

Marine Pollutant: Yes (Oxamyl)

SECTION 15 - REGULATORY INFORMATION

Safety Data Sheet / Safety Data Sheet meets the regulations:
1. Regulation of the Minister of Industry of the Republic of Indonesian number 23 / M-INDPER / 4/2013
3. Building Blocks fifth revised edition of the GHS

SECTION 16 - OTHER INFORMATION

The information and recommendations contained herein are based upon data believed to be correct. However, no guarantee or warranty of any kind, expressed or implied, is made with respect to the information contained herein.
