### GHS Labelling

- Signal Word: Danger
- Hazard statements:
  - H300: Fatal if swallowed
  - H331: Toxic if inhaled
  - H320: Causes eye irritation
  - H341: Suspected of causing genetic defects
  - H351: Suspected of causing cancer
  - H361: Suspected of damaging fertility or the unborn child
  - H370: Causes damage to organs (nervous and circulatory system)
  - H336: May cause drowsiness or dizziness
  - H373: May cause damage to organs (nervous system) through prolonged or repeated exposure
  - H400: Very toxic to aquatic life
Precautionary Statements

Prevention

P264 Wash thoroughly after handling
P270 Do not eat, drink, or smoke when using this product
P260 Do not breathe dust/fume/gas/mist/vapours/spray
P271 Use only outdoors or in well ventilated area
P201 Obtain special instructions before use
P202 Do not handle until all safety precautions have been read and understood
P280 Wear protective gloves/protective clothing/eye protection/face protection/hearing protection
P273 Avoid release to the environment

Precautionary Statements

Respons

P301+P310 IF SWALLOWED: Immediately Call a POISON CENTER/doctor
P321 Specific treatment (see on this label)
P330 Rinse mouth
P304+P340 IF INHALED: Remove person to fresh air and keep comfortable for breathing
P311 Call a POISON CENTER/doctor
P312 Call a POISON CENTER/doctor if you feel unwell
P305+P351 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P337+P313 If eye irritation persist: Get medical advice/attention
P308+P313 IF exposed or concerned : Get medical advice/attention
P308+P311 IF exposed or concerned : call a POISON CENTER/doctor
P314 Get medical advice/attention if you feel unwell
P391 Collect spillage

Precautionary Statements

Storage

P405 Store locked up
P403+P233 Store in well ventilated place. Keep container tightly closed.

Disposal

P501 Dispose of contents/container in accordance with local/ national/ international regulation

SECTION 3 - COMPOSITION / INFORMATION ON INGREDIENTS

<table>
<thead>
<tr>
<th>CHEMICAL NAME</th>
<th>CAS NO</th>
<th>CONCENTRATION (%)</th>
</tr>
</thead>
<tbody>
<tr>
<td>2-isopropoxyphenyl methylcarbamate</td>
<td>114-26-1</td>

</tbody>
</table>

SECTION 4 - FIRST-AID MEASURES

Eye IF IN EYES, rinse cautiously with water for 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
Skin: IF SPILT ON THE SKIN, remove contaminated clothing and wash affected areas of skin immediately. DO NOT Scrub the skin. Remove and wash contaminated clothing before re-use. Call a poison center/DOCTOR/ if you feel unwell.

Ingestion: IF SWALLOWED DO NOT induce vomiting. For advice, contact the National Poisons Centre or a doctor immediately.

Inhalation: IF INHALED, remove from exposure and have patient lie down and keep quiet. If patient is not breathing, start artificial respiration immediately. Never give anything by mouth to an unconscious person. Call a physician if necessary.

SECTION 5 - FIRE FIGHTING MEASURES

General Information: Firefighters must consider the nature of the product and use the poison face shields, full breathing apparatus and flame resistant clothing.

Extinguishing Media: Foam, dry chemical, carbon dioxide, or water spray.

Specific Hazard of Fire: Irritating and toxic gas.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

If container is ruptured or begins to leak, place in a well-ventilated area free of sparks and ignition sources.

Use Personal protective equipment as recommended in section 8.

Prevent product from entering drains or water courses. Shovel or sweep up spills. Never return to container for reuse. Scoop into bags or boxes using plastic or aluminium shovel. Pesticide that cannot be used according to label instructions must be disposed of according to all applicable Local, procedures.

SECTION 7 - HANDLING AND STORAGE

Handling: Do not handle until all safety precautions have been read and understood. Do not breathe dust, vapour or mist. This product causes mild irritation to eyes. Do not get in eyes. Wash thoroughly after handling. Wash clothing after use. Do not store or consume food, drink or tobacco in areas where they may become contaminated with this material.

This product must be under the control of an approved handler at all times. This product must be tracked.

Storage: Do not store near sources of sparks, flame or heat. Keep under lock and keep out of reach of unauthorised persons, children and animals. Store in its original labeled container in isolated, dry, cool and well-ventilated area. Not to be stored next to foodstuffs and water supplies. Local regulations should be complied with.

SECTION 8 - EXPOSURE CONTROL / PERSONAL PROTECTION

Engineering control: Use only with adequate ventilation. Apply grounding system for power tools to prevent static electric charge.

Threshold Limit Value (TLV): 0.5 mg/m³ – 8 h (TLV-TWA ACGIH, 2017)

Personal Protective Equipment

Eye Protection: Safety glasses or face shield
Gloves: Chemical resistant gloves
Clothing Protection: Wear clothing with long sleeve
Respiratory Protection: Mask, in case of inadequate ventilation wear respiratory protection that recommended by NIOSH

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

1. Physical Appearance: Crystalline Powder
2. Color: White
3. Odor: Not available
4. Odor Threshold: Not available
5 pH (1%) : 4-7
6 Melting Point : >86.3 °C
7 Freezing Point : Not available
8 Boiling Point : Not available
9 Flash Point : Not available
10 The rate of Evaporation : Not available
11 Flammability : Not available
12 Lower Explosive Limit (LEL) : Not available
13 Vapour Pressure : 1.74 x 10⁻² mPa (20°C)
14 Molecular weight : Not available
15 Decomposition temperature : Not available
16 Autoignition temperature : Not available
17 Viscosity : Not available
18 Bulk Density : Not available
19 Density relative : Not available
20 Solubility in water : 174 mg/l (distillated water 20 °C) in water
21 Koefisien partition : n-octanol/water : Not available

SECTION 10 - STABILITY AND REACTIVITY
Reactivity : None known
Stability : Stable
Hazardous Reaction under Specific Condition : Not available
Condition to Avoid : Open flames and very hot surfaces can cause thermal decomposition
Incompatible material to avoid : Avoid caustics, amines, alkanolamines, Aldehydes, strong oxidizing agents and chlorinated compounds.
Hazardous Product of Decomposition : Carbon dioxide, carbon monoxide, and methyl amine
Hazardous Polymerization : Will not occur

SECTION 11 - TOXICOLOGICAL INFORMATION
Acute Toxicity (oral) LD₅₀ : 50 mg/kg for male and female rats (Pesticide Manual, 2009)
Single oral dose acute toxicity studies using rats, decreases in cholinesterase activity in the plasma, erythrocytes and brain, convulsions, muscle spasm, dyspnea and salivation were observed (NITE, 2016).

Acute Toxicity (dermal) LD₅₀ : >5000 mg/kg for male and female rats (Pesticide Manual, 2009)

Acute Toxicity (inhalation) LC₅₀ : 0.654 mg/l (aerosol) for rat / 4 hour (Pesticide Manual, 2009)

Subchronic toxicity (90 days) - Technical Material : 16-week repeated dose toxicity study using rats by dietary administration, histopathological changes in the liver and depression of cholinesterase activity in the brain are reported at 1,000 ppm converted guidance value: 50 mg/kg/day (NITE, 2016)

Chronic Toxicity (2 years) - Technical Material : In a 2-year repeated dose toxicity study using rats by dietary administration, hyperplasia of the urinary bladder is reported at 1,000 ppm converted guidance value: 50 mg/kg/day (NITE,
Mutagenicity in germ cells : Multiple positive results of chromosome damage in mouse bone marrow/peripheral blood have been reported (NITE, 2016).

Reproductive Toxicity : Study of high doses, decreases in the number of implantation sites/dam and the number of pups/dam in F1 females were observed at 2,500 ppm (228 - 239 mg/kg/day), where a decrease in red blood cell acetyl cholinesterase activity (males: at 100 ppm or above), body weight reductions (at 500 ppm or above) and urothelial hyperplasia were observed in F0 and F1 parental animals (NITE, 2016)

Carcinogenicity : ACGIH classified this substance as A3. In a one-year carcinogenicity study using rats dosed by feeding, there was an increase in the incidence of urinary bladder papillomas and carcinomas (NITE, 2016)

Eye Irritation : Slightly irritant (Pesticide Manual, 2009)

Skin Irritation : Not irritant (Pesticide Manual, 2009)
